

You're invited to Organized for Impact: Strategies for Change in a Tough Economy!

\$2.6 billion in increased wages
\$2.2 billion in health savings
\$500 million in community benefits
And that's just getting started...

Are you organized for impact?

Nonprofit organizations confront some of today's toughest challenges amid growing needs and decreased financial resources. Grantmakers, large and small, know that the stakes are high, that the need is great, and that every dollar must count.

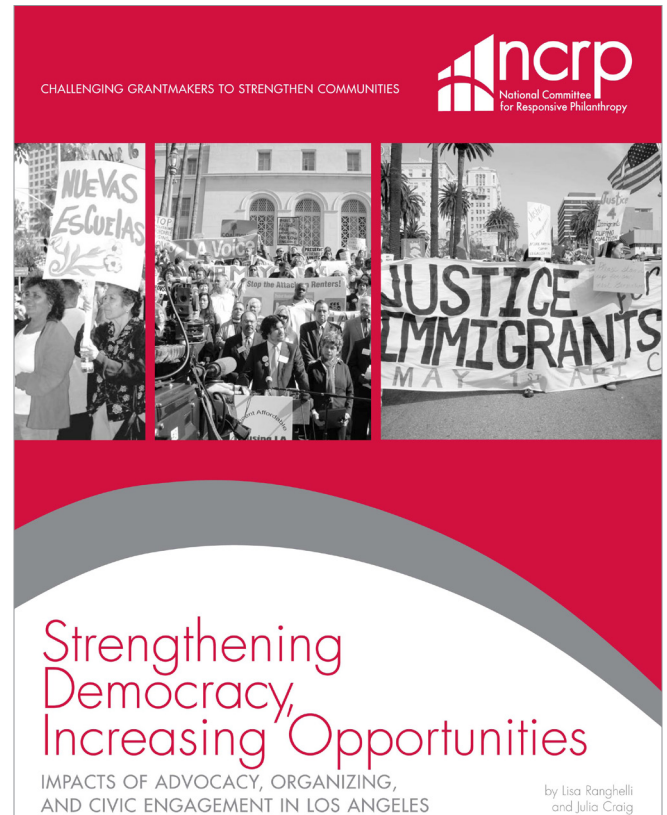

For the past six months, the National Committee for Responsive Philanthropy has been researching how 15 Los Angeles County nonprofits have made their dollars count: using advocacy, organizing, and civic engagement to leverage billions for communities in need.
